

Helping SMSF professionals  
grow their SMSF businesses

## We only do SMSF audits

A specialist service means quicker and better results. Audit your Superfund takes pride in being:

### **Experienced**

We have been doing SMSF audits for a long time, and know what we are doing.

### **Efficient**

We give you a reliable audit that's delivered quickly and offers great value.

### **Technologically savvy**

Our systems are designed to complement high levels of personalised service.

### **Proactive**

We raise any potential issues with you in advance.

## Don't risk your reputation

**Independence** is the foundation of a good audit. You are putting your business at risk if you do not engage a completely independent auditor.

Audit your Superfund allows you to:

- Manage your risk, while eliminating potential headaches and resourcing issues.
- Focus on running your financial planning and/or accounting business (if you also audit your clients' funds then you may be breaching independence requirements).
- Demonstrate that you care about your clients by engaging an independent auditor.

Our systems and processes are designed to work smoothly with your own.

**We take the time to understand your business.**

**With less hassle and a faster SMSF audit process, you can spend more time with your clients.**

## Your SMSF audits are in safe hands

### Easy to deal with

Our audits of your clients are tailored to suit your own systems and processes. A consistent approach ensures an efficient and high-quality SMSF audit every time.

- Audit your Superfund does the right thing by your clients.
- We value and respect your client relationships.
- Your business is an important part of our business.
- We make changing auditors easy and do all the hard work for you.
